

Basic facilities for all AITA tournaments

From time to time the AITA has been receiving complaints from parents of players that some tournaments do not even provide basic facilities to players. The primary responsibility for organizing tournaments is with the State Associations. It is incumbent on them to take all measures for smooth conduct of the tournament. All State Associations are expected to adopt the following measures for organization, supervision & conduct, in every aspect, of tournaments under their jurisdiction.

- 1) The tournament should be held in an area which is easily accessible to the players.
- 2) Before allotting a tournament the State Association should be fully satisfied with the facilities available at the venue.
- 3) Proper resting place must be provided for players to rest between matches.
- 4) Clean drinking water must be arranged at the venue.
- 5) Arrangements for Bottled water, Tea, Coffee, Soft drinks & Snacks should be made.
- 6) Neat & clean toilets must be available at the venue.
- 7) Separate changing rooms must be provided for boys & girls.
- 8) Responsible officials should be designated by the organizers to be available for the entire duration of the matches.
- 9) First Aid facilities (Box) must be available at the venue.
- 10) In case of an emergency a vehicle should be available to transfer the patient to the nearest hospital.
- 11) Players Grievances at the tournament must be sorted out by the Referee/Tournament Director. Grievances' of a bigger nature may be forwarded to AITA, who in turn will forward the same to the State Secretary for his comments with a copy to the Chairman Tournament Committee. The final action taken will be forwarded to the complainant.

The compliance of the above is mandatory.
